

CONSTRUCTION OF A GAS INTERCONNECTION BETWEEN POLAND AND SLOVAKIA

Piotr Kuś

Deputy Director of Gas Market Development Division

GAS INTERCONNECTION POLAND-SLOVAKIA

Task name: “Construction of a gas interconnection between transmission systems of the Republic of Poland and the Slovak Republic together with the infrastructure necessary for its operation – gas pipeline from Strachocina to the PL Border”

Location: Podkarpackie voivodship, Sanok county, municipalities: Sanok, Bukowsko, Comanche

Pipeline parameters: diameter: DN1000, MOP pressure 8,4 MPa, **length: ~61 km**

Expected commissioning date: 02.2022

Capacity:

- PL→SK: 4.7 bcm / year
- SK→PL: 5.7 bcm / year

STRACHOCINA DISPATCHING AND MEASUREMENT POINT

Task name: “Construction of a gas interconnection between transmission systems of the Republic of Poland and the Slovak Republic – **gas dispatching and measurement point Strachocina**”

The construction of the point is an important element of the interconnection between Poland and Slovakia, it will enable the integration of the interconnector with the national transmission system.

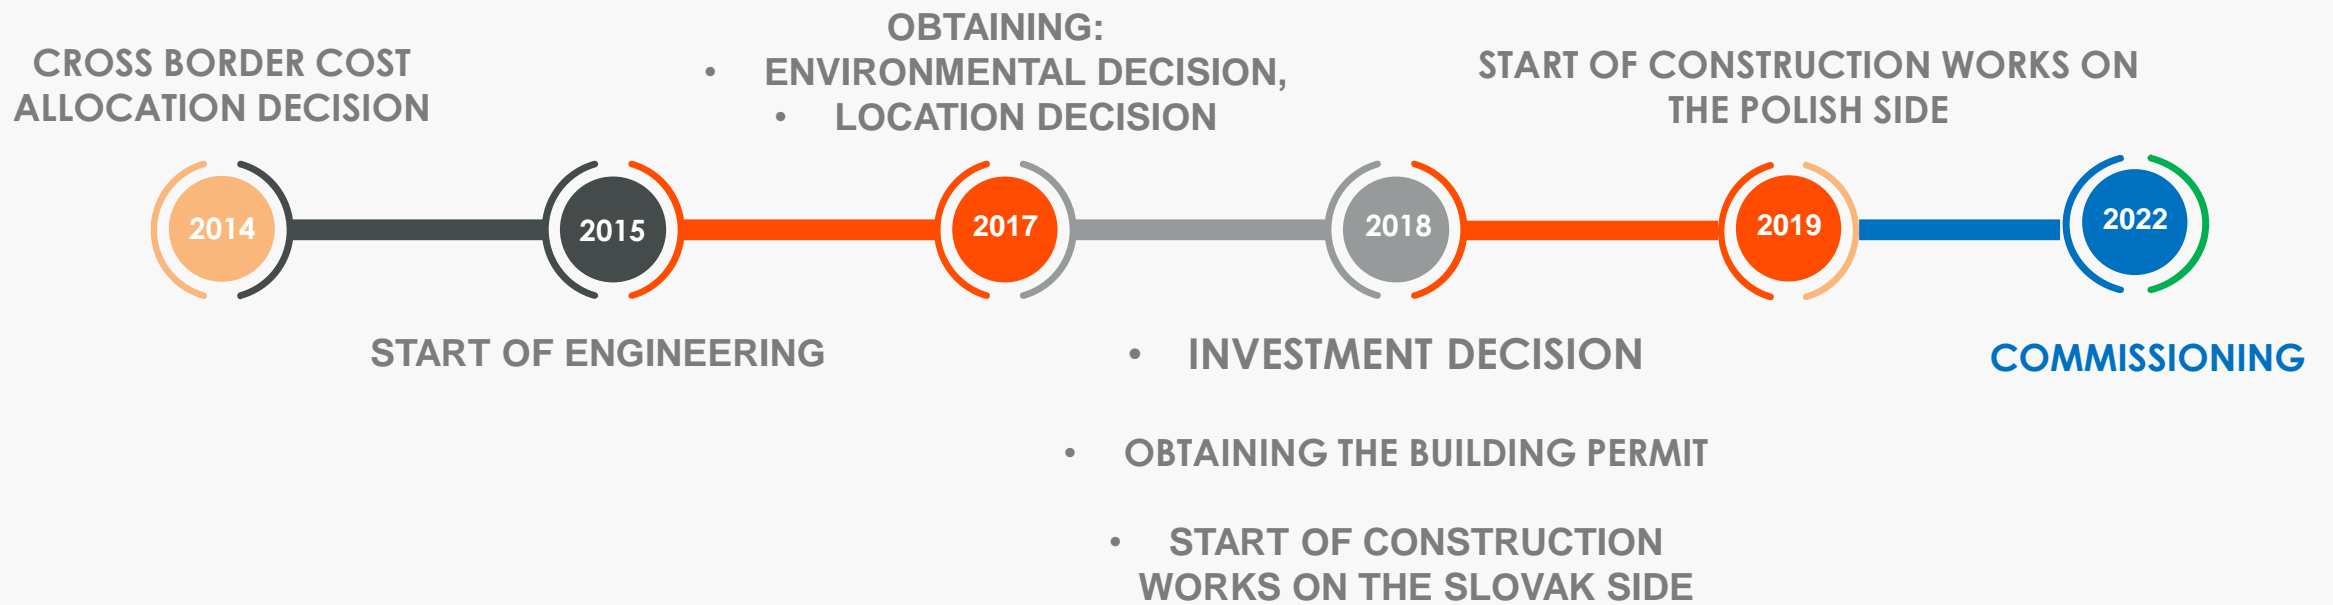

Location: Podkarpackie voivodship, Sanok County

Expected project completion date: 07.2021

GAS INTERCONNECTION POLAND-SLOVAKIA

Schedule

PROJECT OF COMMON INTEREST

Project of Common Interest (PCI)

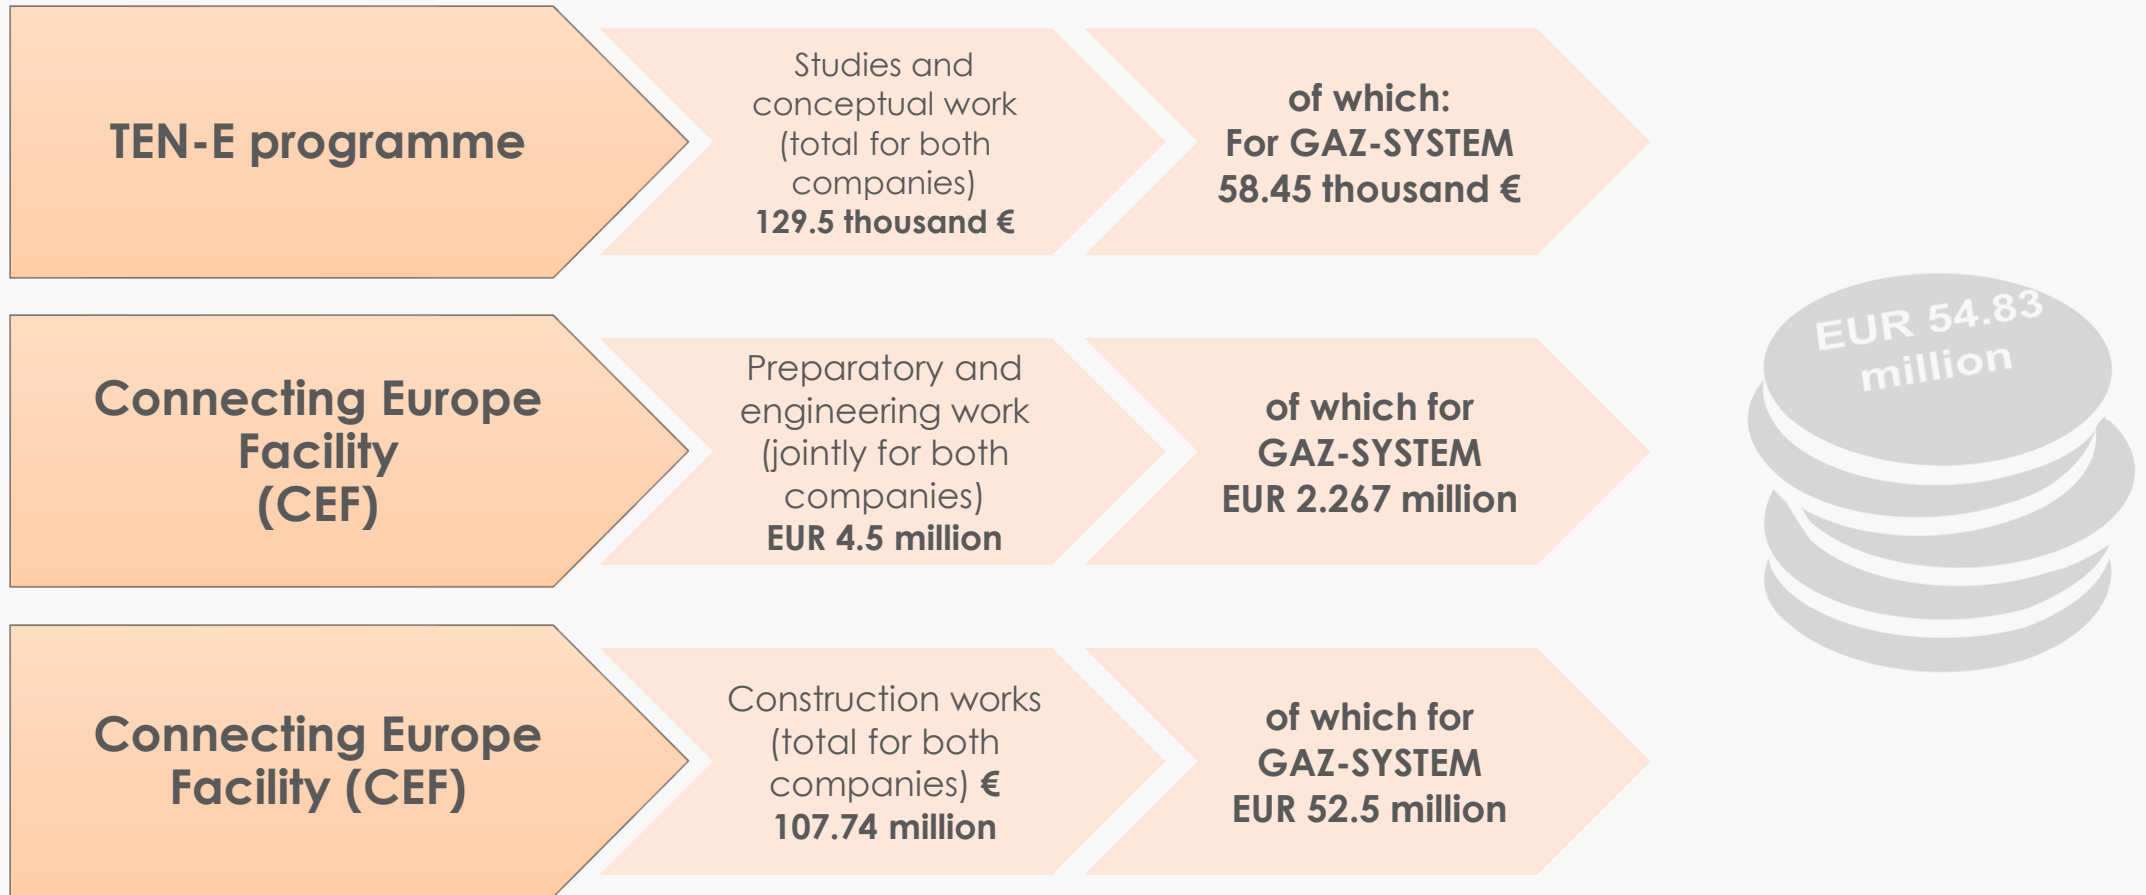

The project has been recognised by the European Commission as a “Project of Common Interest” (PCI) three times already – in 2013, 2015 and 2017.

The interconnection of the Polish and Slovak transmission systems has been included in the list of projects of common interest (PCI) as part of the priority corridor *North-South Gas Interconnections in Central-Eastern and South-Eastern Europe (NSI East Gas)*.

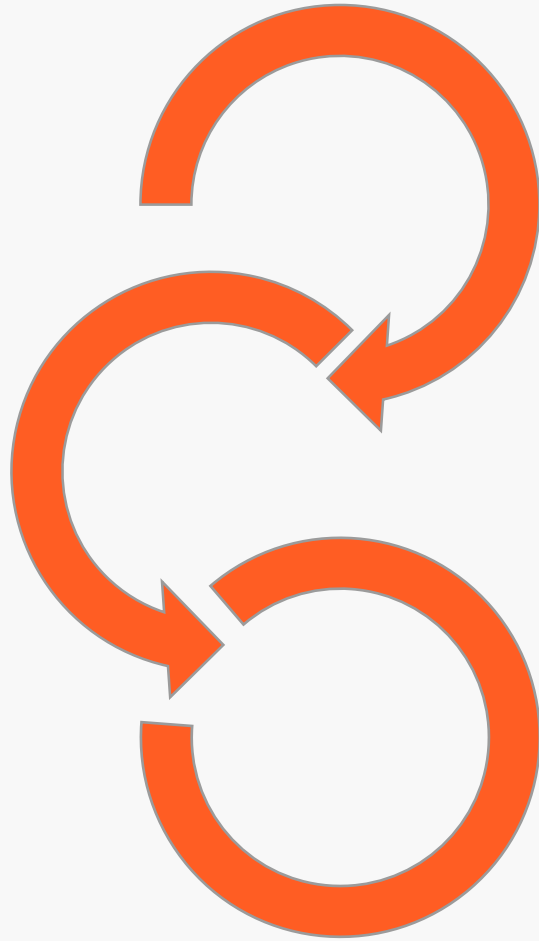

The granting of PCI status **confirms the importance of the project for the improvement of security and diversification of supply and access to natural gas in Central and Eastern Europe.**

CO-FINANCING BY THE EUROPEAN UNION:

GAS INTERCONNECTION POLAND-SLOVAKIA

An important element of the creation of **an integrated European gas market**

Diversification of gas supply to our partners from the countries of Central and Eastern Europe — **possibility of gas transmission from the LNG terminal and the Baltic Pipe gas pipeline**

Enhanced security of gas supply, new opportunities are provided for the **activation of the solidarity mechanism** in the event of a gas crisis

WELDING WORK ON THE DN1000 GAS PIPELINE STRACHOCINA-PL/SK BORDER

09.2019

INAUGURATION OF THE CONSTRUCTION OF THE POLISH PART OF THE POLAND-SLOVAKIA GAS INTERCONNECTION

06.09.2019

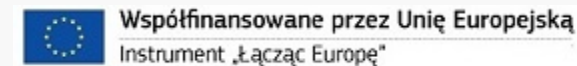

TOUR DE GAS 2019

06 -10.09 2019

500 km of routes:
Bóbrka (Poland) Velké Kapušany (Slovakia)

THANK YOU!
