

## DIFFERENCES IN THE LEVEL OF TRANSMISSION TARIFFS

1. THE DIFFERENCE IN THE LEVEL OF TRANSMISSION TARIFFS FOR THE SAME TYPE OF TRANSMISSION SERVICE APPLICABLE FOR THE PREVAILING TARIFF PERIOD AND FOR THE TARIFF PERIOD FOR WHICH THE INFORMATION IS PUBLISHED, ART. 30 PARA. 2 (A) (I)

The table presented below shows differences in the levels of the tariffs in the years 2023 – 2024 (before after tariff change) for high-methane gas.

Table. Comparison of tariff rates in 2023 – 2024 (before and after tariff change).

| Tariff Year   | Exit PWP<br>[gr/kWh/h/h] | Exit Mallnow<br>[gr/kWh/h/h] | Entry Mallnow<br>[gr/kWh/h/h] |
|---|--------------------------|------------------------------|-------------------------------|
| 2023  | 0.4308                   | 0.4308                       | 0.4412                        |
| 2024 before tariff change                                 | 0.4916                   | 0.4916                       | 0.5157                        |
| 2024 after tariff change                                  | 0.4941                   | 0.4941                       | 0.5182                        |
| Δ 2024 before tariff change v.s. 2023                     | 114%                     | 114%                         | 117%                          |
| Δ 2024 after tariff change v.s. 2023                      | 115%                     | 115%                         | 117%                          |
| Δ 2024 after tariff change v.s. 2024 before tariff change | 101%                     | 101%                         | 100%                          |

The differences in the level of transmission tariffs for the same type of services between the tariff years 2024 and 2023 result from differences in the level of forecasted contracted capacity at entry and exit points and from differences in the level of operating costs of the transmission system. Change of the level of transmission tariffs in 2024 is due to the update of equity risk premium index in WACC calculation in accordance with „Metodologia określania wskaźnika kosztu kapitału zaangażowanego dla operatorów systemów gazowych na lata 2024 - 2028" (The methodology of setting the weighted average cost of capital for 2024 - 2028 for infrastructural enterprises in gas sector)", published by the President of the Energy Regulatory Office on 29 November 2023.

2. ESTIMATED DIFFERENCE IN THE LEVEL OF TRANSMISSION TARIFFS FOR THE SAME TYPE OF TRANSMISSION SERVICE, APPLICABLE FOR THE TARIFF PERIOD FOR WHICH THE INFORMATION IS PUBLISHED AND FOR EACH TARIFF PERIOD WITHIN THE REMAINDER OF THE REGULATORY PERIOD, ART. 30 PARA. 2 (A) (II)

In connection with the decision of the President of the Energy Regulatory Office, number DRG.DRG-2.4212.3.2024.JDo1 of 1 March 2024, the reference prices for 2024 have changed. The rates resulting from the amended Tariff No. 1/2024 for gaseous fuels transmission of the Polish Section of the Transit Gas Pipeline System Yamal – Europe will be applied from 15 March 2024 from 6:00 a.m. to 1 January 2025, to 6:00 a.m.
